EXPERIENCE

Protecto, Sofia (remote) - *Web/ Graphic Designer*

November 2021 - January 2022

Volunteer work where I designed a full website for an innovative security product pending patent. Tasks included UI/UX design, graphic design e.g. icons, branding, web design.

Trebel 16, Sofia (remote) - *Web Designer*

June 2021 - January 2022

Returned to Trebel in order to design an updated version of their website after the company expanded its reach. Responsibilities included UI/UX design, branding, web design of the new site, and some copywriting.

MetaSolutions AB, Stockholm - *JavaScript Developer*

March 2020 - November 2020

Worked as a junior programmer on tasks such as translations between JS frameworks and libraries (Dojo, Mithril, React), bug fixing, and other miscellaneous assignments such as testing.

Trebel 16, Sofia - *Web Designer/Developer*

June 2019 - December 2019

Reworked and redesigned the company website I had started developing before and deployed it. Continued to provide technical support as well as small updates and improvements to the website. I was the sole developer on this project.

Business Software Consult, Sofia - *IT Consultant*

July 2018 - September 2018

Worked on a web app which processed Excel invoices, mainly on front-end development. Moreover, helped bring outdated company software up to date with current technologies and object-oriented design concepts.

Trebel 16, Sofia - *Web Developer*

July 2017 - October 2017

My task was to develop a simple website for this newly founded business; the website was not deployed during that time as the company did not have enough content for it yet. Additional responsibilities included varied tech support.

EDUCATION

KTH Royal Institute of Technology, Sweden - *MSc Interactive Media Technology*

August 2020 - Present (expected graduation: June 2022)

Warsaw University of Technology, Poland - *BE Computer Science*

September 2016 - February 2020
